Would it help if we move the meeting to a location in downtown Portland
- say our office?

Eric

(b) (6) To complicate matters, the meeting is at the airport which will
delay my return time. I might be able to call in, but I will

FYI - here is the information on the LWG benthic discussion. You four are the core group that needs to attend this. There may be a few others but we are hoping to keep this small. The meeting is focused not so much on the evaluation of benthic risk in the BERA, but application of the benthic risk evaluation in the FS including some sort of weight of evidence evaluation.
